Job History

WeaveUp

Front-End Developer & UX Designer

July 2019 – Current / Remote / weaveup.com

- Built and designed the UI of a web app for uploading and customizing textile designs using Vue.JS, Vuex, Tailwind CSS and Jest for unit testing.
- Wireframed, prototyped, and implemented interface solutions for internal admin tools.
- Maintained Angular 1 codebase that integrates with Ruby on Rails APIs.

META+LAB at Cal State Northridge

Lead Front-End Developer, Teacher and Mentor

May 2018 – July 2019 / Northridge, CA / metalab.csun.edu

- Lead and mentored a team of 10 front-end developers working across various student teams in an agile SCRUM environment developing Vue.JS applications.
- Taught front-end development on campus in the form of bootcamps and unofficial classes. Topics included Vue.JS, Responsive Web Design, Bootstrap, Sass, Github, and fundamental HTML/CSS/Javascript.
- Participated in the UX design process and design sprints for project kick-offs.
- Acted as Product Manager and Scrum Master for various projects.

Fluent (E-Commerce Agency)

Front-End Web Developer

January 2014 – November 2017 / Venice, CA / thinkfluent.com

- Built responsive e-commerce websites and landing pages based on Photoshop and Sketch mockups using Sass, Bootstrap and jQuery.
- Ensured sites were accessible, SEO-friendly, and optimized for cross-browser, cross-device and cross-network-speed.
- Customized cart pages and checkout/upsell flows using HTML and CSS.

DecoNetwork

Lead Web Designer and Project Manager

Oct 2012 - Oct 2013 / Los Angeles, CA / deconetwork.com

- Designed and built custom themes for clients within the DecoNetwork e-commerce / CMS platform.
- Created mockups using Photoshop and Illustrator.
- Skinned themes using HTML, CSS, and jQuery plugins.
- Project managed, handled all clients, and supervised team members.

Tough Guppy Productions

Web Designer Internship

Jan 2012 - Aug 2012 / Los Angeles, CA / toughguppy.com

- Built and maintained marketing websites for clients.
- Contributed towards designing websites and logos.
