Andrew Grano

Front-End
Web Developer
& Designer

andrewgrano.com / Los Angeles, CA / (858) 231-6482 / andrewgrano@gmail.com

Summary

Crafting beautiful, functional websites is my **passion**!

I am a determined team player who always strives to create websites that are **aesthetically** pleasing, **fast** to load, **accessible** to everyone, and work seamlessly across all browsers and devices.

I am seeking a position where I can contribute as both a **developer** and a **designer** on exciting front end interfaces.

Qualifications

11+ years in web development and design with high proficiency in HTML/CSS/ Javascript, **Vue.JS**, Sass/Scss, Git/GitHub, **Responsive Design**, UI/UX for the web, style guides, **animations**, designing and prototyping in **Figma**

Bachelor of Arts in Multimedia from California State University, Northridge

Taught, mentored, and lead college students in Front End Development

Approximately 6 years working in **e-commerce agencies** and 5 years in a **software development** for startups

Job History

Ycode
Front-End Developer
September 2021 – Current / Remote / ycode.com

- As the primary front-end developer, I used Vue.js to build no-code software
- I implemented animation features using the GSAP javascript library, customizable slider/lightbox components using swiper.JS, and many design features using Tailwind CSS

Netalico (E-Commerce Agency)
Front-End Engineer
Dec 2020 – September 2021 / Remote / netalico.com

- Built and maintained e-commerce sites on the Shopify platform using liquid, javascript, Sass/Scss, HTML5

WeaveUp
Front-End Developer & UX Designer
July 2019 – Current / Remote / weaveup.com

- Built and contributed to the UX design of a web app for customizing textile designs - using Vue.JS, VueX, Tailwind CSS and Jest for unit testing.
- Wireframed, prototyped, and implemented interface solutions for admin tools.

META+LAB at Cal State Northridge
Lead Front-End Developer, Teacher and Mentor
May 2018 – July 2019 / Northridge, CA / metalab.csun.edu

- Mentored and lead a team of 10 front-end developers working across various student teams in an agile SCRUM environment developing Vue.JS applications.
- Taught front-end development on campus in the form of bootcamps and classes. Topics included Vue.JS, Responsive Web Design, Bootstrap, Sass/Scss, Github, and fundamentals of HTML/CSS/Javascript.
- Participated in the UX design process and design sprints for project kick-offs.
- Acted as Product Manager and Scrum Master for various projects.

Fluent (E-Commerce Agency)
Front-End Web Developer
January 2014 – November 2017 / Venice, CA / thinkfluent.com

- Built responsive e-commerce websites and landing pages based on Photoshop and Sketch mockups using Sass, Bootstrap and jQuery.

DecoNetwork
Lead Web Designer and Project Manager
Oct 2012 - Oct 2013 / Los Angeles, CA / deconetwork.com

- Designed and built custom themes for clients within the DecoNetwork e-commerce / CMS platform.
